Examine the role of those tasked with protecting assets, including critical infrastructure identified by the Department of Homeland Security and other public and private property.

Credit Hour(s):

2

Lecture Hour(s):

2

Requisites

Prerequisite and Corequisite

CJ-1000 Introduction to Criminal Justice or departmental approval: prior equivalent experience.

Outcomes

Course Outcome(s):

Evaluate the threats that exist to both large and small physical structures and be able to conceptually implement various safety measures to protect them.

Objective(s):

1. Identify the three goals of physical security.
2. Discuss three factors to consider when conducting a risk analysis survey.
3. Discuss techniques for protecting national landmarks and large buildings.
4. Describe new technologies to secure large buildings.
5. Discuss security for smaller buildings.

Course Outcome(s):

Apply knowledge of workplace violence to recommend appropriate measures for decreasing the threat of violence in the workplace.

Objective(s):

1. Discuss the causes of workplace violence and its warning signs.
2. Explain what programs can be developed to decrease the threat of violence in the workplace.
3. Describe steps that need to be taken by a manager when responding to any outbreak of violence in the workplace.
4. Identify the legal concept for pre-employment background screening.

Course Outcome(s):

Utilize appropriate methods for protecting proprietary information.

Objective(s):

1. Explain four types of proprietary information and the methods for their protection.
 2. Discuss threats posed by foreign countries and domestic competitors to a company's trade secrets and other valuable information.
 3. Examine methods for protecting a company's trade secrets and other valuable information from foreign and domestic competitors.
 4. List the concerns of a business crime prevention program.
-

Course Outcome(s):

Evaluate threats and vulnerabilities of individual private clients and public officials.

Objective(s):

1. Profile individuals who may pose a threat to individual clients.
 2. Evaluate vulnerabilities and exposures of individual clients.
 3. Discuss and analyze problem-solving approaches to threatening situations, such as hostage takings.
 4. Profile potential threats to the lives of public officials.
 5. Discuss measures that need to be taken to protect the President and other high-ranking government officials against assassination threats.
 6. Discuss legal considerations in the use of force.
-

Methods of Evaluation:

1. Participation
2. Midterm and final examinations
3. Term project

Course Content Outline:

1. Protective service profession evolution
 - a. Private v. Public
 - b. Internal controls
 - c. External threats and special problems
2. Building/physical structure security
 - a. Goals
 - b. Risk analysis factors
 - c. National landmarks security
 - d. large building security
3. Security vulnerability assessment
 - a. Electronic aids in security
 - b. Auditory Sensors
 - c. Pressure Sensors
 - d. Iris Scanners
 - e. Body Scanners
4. Workplace violence
 - a. Causes
 - b. Warning signs
 - c. Programs to decrease workplace violence
 - d. Responding to workplace violence
 - e. Pre-employment background screening
5. Protecting proprietary information
