

WGS-151H: HONORS INTRODUCTION TO WOMEN'S AND GENDER STUDIES

Cuyahoga Community College

Viewing: WGS-151H : Honors Introduction to Women's and Gender Studies

Board of Trustees:

January 2022

Academic Term:

Fall 2022

Subject Code

WGS - Women and Gender Studies

Course Number:

151H

Title:

Honors Introduction to Women's and Gender Studies

Catalog Description:

In-depth introduction to the field of women's and gender studies, which transcends traditional disciplinary boundaries. Analysis of gender's role in shaping human societies of past and present: their history, their expression through arts and literature, their philosophy of feminism, and comparative conditions of women in diverse cultures and social locations. Note: Course meets same graduation requirements as WGS-1510.

Credit Hour(s):

3

Lecture Hour(s):

3

Requisites

Prerequisite and Corequisite

Completion of ENG 1010 College Composition I with a grade of A or B; or eligibility to enroll in ENG 101H Honors College Composition I.

Outcomes

Course Outcome(s):

Demonstrate an understanding of the field of Women's Studies as an academic discipline.

Objective(s):

1. Define the concept of interdisciplinarity as it applies to Women's and Gender Studies.
2. Discuss central debates within the field, both current and historical.
3. Identify significant concepts originating from other academic disciplines in both the Humanities and Social Sciences.
4. Discuss significant elements of feminist theory.
5. Identify feminist research methodologies, both qualitative and quantitative, across a variety of subject areas.
6. Analyze information sources within the field of Women's and Gender Studies with a focus on primary source documents.

Course Outcome(s):

Evaluate gender and feminist theories both past and present.

Essential Learning Outcome Mapping:

Critical/Creative Thinking: Analyze, evaluate, and synthesize information in order to consider problems/ideas and transform them in innovative or imaginative ways.

Objective(s):

1. Analyze theories essentialism, biological determinism, and social construction as they relate to gender.
 2. Describe the ways in which gender as a socially constructed identity category intersects with a multitude of other socially constructed identities.
 3. Discuss the social processes that shape beliefs about gender both in the U.S. and globally.
 4. Analyze ways in which traditional gender roles affect individuals and society as a whole.
 5. Analyze how social and cultural institutions, such as education, media, family, religion, economics, affect individuals of different gender identities.
-

Course Outcome(s):

Analyze the ways in which oppression is gendered.

Essential Learning Outcome Mapping:

Cultural Sensitivity: Demonstrate sensitivity to the beliefs, views, values, and practices of cultures within and beyond the United States.

Objective(s):

1. Define concepts of privilege, oppression, sexism, and patriarchy.
 2. Apply ethical standards to evaluation of relevant issues associated with privilege and oppression.
 3. Analyze basic principles of intersectional and transnational feminisms.
 4. Describe identity as a complex concept that includes an individual's race, color, language, religion, national origin, gender, sexual orientation, age, and socio-economic status.
 5. Interpret the ways that gendered oppression has shaped history with specific focus on ethnocentrism, colonialism, slavery, democracy, capitalism, and imperialism.
 6. Interpret how cultural practices within historical, social, cultural, and economic systems shape people's socio-cultural status and access to resources across genders.
 7. Describe the meaning of empathy and synthesize ways in which empathy across a range of socio-cultural identities has the capacity to reduce the impacts of gendered oppression.
-

Course Outcome(s):

Examine the impact of women's activism on society both past and present.

Objective(s):

1. Identify significant events in the history of women's fight for equality in society.
 2. Identify the ways in which women throughout history have challenged ethnocentrism, colonialism, slavery, and imperialism.
 3. Identify important current events, issues, and movements relating to women and examine how they exist in an historical context.
 4. Analyze the concept of feminist praxis.
 5. Synthesize diverse perspectives or points of view from varying groups of activists.
-

Methods of Evaluation:

1. A self-directed research or service learning-based final project or a cumulative examination included as part of final grade
2. Oral presentations
3. Written analysis of historical or contemporary popular culture texts
4. Tests including multiple choice, short answer, and essay type questions
5. Analysis of primary and secondary source materials
6. Research paper
7. Final evaluation of course and impact

Course Content Outline:

1. Women's & Gender Studies as an academic discipline
 - a. Emergence of the field with the history of the women's movement
 - b. Interdisciplinary perspectives
 - c. Relationship to and differentiation from Queer Studies and Gender Studies
